

SUGGESTED LANGUAGE FOR WELCOME TO/AND WRAP UP

Welcome

Thank you all for coming. Some of you may be wondering why you are here today. We want you to know that we are so glad you could join us because we have put together this presentation so you have an opportunity to learn more about our work here at the Just Like My Child Foundation. We hope that you will be moved today as we are moved each day in doing what we do. (Then the greeter/ welcomer should give his/her own personal story and how they are connected to the foundation before they introduce Vivian Glyck.)

Wrap up

And at the end of the informational program:

Thank you, once again, for joining us here today. We can see that some of you have truly been moved and inspired, as we are, by this work. We are looking forward to hearing any questions you have as well as your feedback on the follow-up phone call we'll be making to you in the next few days or weeks. Thank you all, and have a great day!
